Fontaine des Mars, Paris

Day 1 – Thursday 8th July

Arrive Paris early and travel directly to Monet’s Garden in Giverny, the famous gardens of the impressionist painter Claude Monet. Visit the house, the Japanese style water garden (inspiration for the water-lilies series of paintings) and the main flower garden, known as the Clos Normand. There, among the espaliered apples, vines, and climbing roses, are rows upon rows of iris, dahlias, hollyhocks and other brash flowering plants – all harmoniously blended together.

Giverny

Continue to Rouen, the ancient capital of Normandy. The city is famed for its half-timbered medieval buildings and narrow cobbled streets, and is the site where St. Joan of Arc was burned at the stake by the English in 1431. Notre Dame Cathedral of Rouen is a wonderful example of French Gothic architecture, the cathedral took an amazing 300 years to complete.

Welcome dinner tonight at the hotel.

Overnight: **Rouen** (-/-/D)

Day 2 – Friday 9th July

Today will be spent on the coast near Dieppe. First there will be a guided visit of Le Vasterival, where in 1957 the late Princess Sturdza designed a hilly woodland garden for the purpose of growing plants well and showing them to their best advantage.

Later continue to the nearby Parc des Moutiers, a house and garden very much in the English style, designed by Sir Edwin Lutyens. There will not be enough time to see inside this house but the interior of the 17th century Chateau de Miromesnil, the birthplace of author Guy de Maupassant, your last visit today, will be seen together with its traditional kitchen garden.

Return to Rouen later this afternoon.

Overnight: **Rouen** (B/L/-)

Day 3 – Saturday 10th July

This morning depart the hotel and travel the short distance to Le Jardin Plume, a beautiful contemporary garden close to Rouen. The garden specializes in grasses and perennials and uses parterres of clipped hedges to give the garden structure.

The garden was designed around a former orchard and pasture by owners Patrick and Sylvie Quibel who moved here in 1996.

Continue this afternoon to the charming village of Lyons-la-Forêt, the former place of residence of the Dukes of Normandy which is now listed among the most beautiful villages of France. Its central square is delightfully picturesque, with old half-timbered façades, 18th-century wooden market halls, fountains and cafes with open air terraces providing an ideal place to relax and watch the world go by.

This afternoon head north to Le Jardin Agapanthe, the creation of the landscape architect and designer Alexandre Thomas. A site of ongoing research, it is continually evolving. Over more than 9,000 sq. meters of gardens without lawns, visitors can enjoy the assembly of the designer's favorite plants. This contemporary garden is defined by its powerful structure. With strongly emphasized groundworks, a maze of terraces and walls, watercourses and pools create a succession of moods.

Return to Rouen later this afternoon.

Overnight: **Rouen** (B/-/-)

Day 4 – Sunday 11th July

Depart Rouen this morning and head north to the Normandy coast for a visit to Les Jardins d'Étretat, a futuristic garden that extends over the white chalk cliffs of the Alabaster Coast, one of the wonders of Normandy.

The historic garden has been re-modelled by landscape architect Alexandre Grivko, who has transformed it into a site of avant-garde experimentation where lush topiary, architecture and contemporary art all combine harmoniously.

Then head westwards along the coast to explore the colorful port of Honfleur, which has attracted many artists to paint it. Lunch will be included here.

This afternoon continue to the Jardin du Pays d'Auge, a lovely established garden on a 3 hectare site. Originally a meadow surrounding an old farmhouse the garden has been transformed into a series of beautiful gardens each with their own character but following harmoniously one to the next.

The gardens have been designed around various themes. The Jardin du Soleil, garden of the sun, is filled with plants with golden leaves or flowers with bold

splashes of red and orange to add heat to the planting scheme. By contrast the Jardin de la Lune, or moon garden, is filled with silver leaves and a pool of water to reflect the light. Other gardens include a water garden, a perfume garden, a box garden and a purple garden.

Continue to the historic town of Bayeux for a further 3-night stop.

Overnight: **Bayeux** (B/L/-)

Day 5 – Monday 12th July

This morning there will be a guided walking tour of the historic city center of Bayeux, where you will also have an opportunity to see the famous Bayeux Tapestry and buy lunch.

In the afternoon there will be a tour of the D-Day beaches near Arromanches including a visit to the Pointe du Hoc where the U.S. Army Rangers scaled the cliffs to attack the gun battery on the top and then fended off German counter attacks for two days. There will also be a visit to the huge American Military Cemetery near Omaha Beach.

Return to Bayeux with dinner included tonight.

Overnight: **Bayeux** (B/-/D)

Day 6 – Tuesday 13th July

Depart hotel this morning and travel to the Château de Brécý, a seventeenth century chateau with a meticulously restored, richly ornamented Italian style garden.

The gardens of the Château de Brécý date from the mid-17th century. Laid out over four consecutive terraces of increasing size, carved decorative features: statues, balustrades and vases elegantly combine with the pruned topiaries. This unique garden in Normandy is one of France's rare remaining examples from this period.

Continue to Caen for a visit to the Jardin des Plantes, also known as Jardin Botanique de Caen, a botanical garden and arboretum located in the center of town.

It boasts some 5,000 sq. meters of verdant alleyways with over 8,000 different plant species laid out in two sections. Normandy's typical flora rubs shoulders with exotic plant species in the greenhouses,

This afternoon there will be a visit to the award-winning Jardin de Castillon, located between Bayeux and Balleroy, it was created in 1985 by enthusiastic gardeners Colette and Hubert Sainte-Beuve. On one side you will find a succession of themed gardens each enclosed by high taxus hedges and each offering a unique atmosphere from the previous one. On the other side three vast terraces punctuated by yew topiary and beechwood hedges each offer a unique impression: a collection

of ornamental grasses, a blue garden and an ensemble of daylilies and hostas arranged around a reflecting pond.

The visit ends with a small arboretum followed by a labyrinth created from box hedging.

Return to Bayeux later this afternoon.

Overnight: **Bayeux** (B/-/-)

Day 7 – Wednesday 14th July

Depart Bayeux for a visit to a local cider and calvados producer. Enjoy a tour of the cider press and distillery followed by an opportunity to taste this famous and traditional Normandy product.

Depart afterwards for the Loire Valley region. The Loire is France's longest river stretching east to west for over 600 miles. The mild climate and fertile alluvial soil make this a region well suited for growing fruit, vines and vegetables. In addition, the region is home to a unique concentration of chateaux, some of the most extravagant and stunning examples of Renaissance and Baroque architecture to be found in all of Europe.

On arrival there will be a visit to the Chateau of Villandry, the last of the great chateaux built during the Renaissance period in the Loire Valley. The sober elegance of its architecture combined with the charm of its outstanding gardens make this one of the jewels of world heritage.

The Ornamental Kitchen Garden is the most high-profile feature of the gardens of Villandry. In the Renaissance style, it consists of nine plots all of the same size, but each with a different geometric design of vegetables and flowers. The plots are planted with vegetables in alternating colors – blue leek, red cabbage and beetroot, jade green carrot tops, etc. – giving the impression of a multi-colored chessboard.

Dinner included tonight.

Overnight: **Blois** (B/-/D)

Day 8 – Thursday 15th July

Depart hotel for a visit to the Chateau de Chaumont.

The fortress of Chaumont-sur-Loire was built around the year 1000 to keep watch over the border between the counties of Blois and Anjou. In 1465, Louis XI had the château burned and razed to the ground, but it was rebuilt just a few years later. It was owned by the Amboise family for a good 500 years, and it was Charles II d'Amboise who from 1498-1510 turned it into an ornamental château in the

Renaissance style, with sculpted decoration becoming the major feature of its outer façades. It is now one of the defining buildings of the Loire Valley region.

The gardens of Chaumont-sur-Loire castle are officially listed as a French 'jardin remarquable'. Less formal than those found at many of the Loire castles, you can stroll through the wooded parkland as well as seeing the kitchen garden. There is also a garden collection here called the Parc du Goualoup where permanent gardens with modern and contemporary designs have been established.

Lunch will be held afterwards at a nearby restaurant followed by a visit to a vineyard for a tour of the winery and wine-tasting. The Touraine region is a major wine growing region of France. There are approx. 1,400 winegrowers producing 58 million bottles each year of both red and white wines.

Continue this afternoon to the garden village of Chedigny, the only village in France which has been awarded the title 'Jardin Remarquable'!

The village has been transformed into one giant garden where visitors can wander through narrow streets and admire the houses bedecked with roses, shrubs and spring bulbs.

There are 1,000 rose plants with 300 varieties and more than 3,000 perennials. Every year around 30 new roses and additional new beds are created.

Overnight: **Blois** (B/L/-)

Day 9 – Friday 16th July

This morning visit one of this region's best-known Chateaux, Chenonceau. With its distinctive arches spanning the river Cher, it is perhaps one of the most famous chateaux of the Loire Valley.

Built on the site of an old mill it is an architectural mixture of late Gothic and early Renaissance elements surrounded by formal Renaissance gardens. It was famously the preferred residence of Catherine de Medici, the wife of King Henry II of France, who evicted her husband's former mistress Dianne de Poitiers in order to live there herself.

Return to Blois with the remainder of the day free to explore the town.

Overnight: **Blois** (B/-/-)

Day 10 – Saturday 17th July

Depart the Loire Valley this morning for the return journey to Paris stopping en route in Chartres to view the great cathedral, the high point of French Gothic art. The vast

nave, the porches adorned with fine sculptures from the middle of the 12th century, and the magnificent stained-glass windows, all in remarkable condition, combine to make it a masterpiece.

Also included will be a visit to the Maison Picassiette, an unusual, small house decorated inside and out with pieces of crockery.

There will be some free time before the visits to buy lunch. Later in the afternoon continue to Paris.

Overnight: **Paris** (B/-/-)

Day 11 - Sunday 18th July

This morning you will be issued with a 24-HOUR ticket for a hop-on/hop-off open top bus tour of Paris which will allow you to explore Paris at your own pace, allowing you the freedom to pick and choose where you visit from the vast array of attractions that Paris has to offer.

Overnight: **Paris** (B/-/-)

Day 12 -Monday 19th July

This morning visit the monumental chateau of Louis XIV, the Sun King – Versailles. See the grands appartements of the royal living quarters including the perfectly restored boudoir of Marie Antoinette and the beautiful Galerie des Glaces also known as the Hall of Mirrors and Louis XIV's throne room. You will also have time to explore the vast, beautiful gardens of the chateau.

Return to central Paris with the rest of the afternoon at leisure for independent sightseeing.

Re-gather tonight for a farewell dinner.

Overnight: **Paris** (B/-/D)
